# ansights

explore connections among heterogeneous historical newspaper sources on the fly

HISTORICAL DOCUMENT EXPLORER

The **Historical Document Explorer** analyzes documents containing German gothic fonts, performs NER, and extracts keywords which are mapped to GND. The documents are then linked to historical newspaper articles from the same time period.

On the fly:
OCR
NER
Keyword Extraction

GND
Keyword mapping

Find related articles from "Deutscher Reichsanzeiger" and "Preußischer Staatsanzeiger" collection
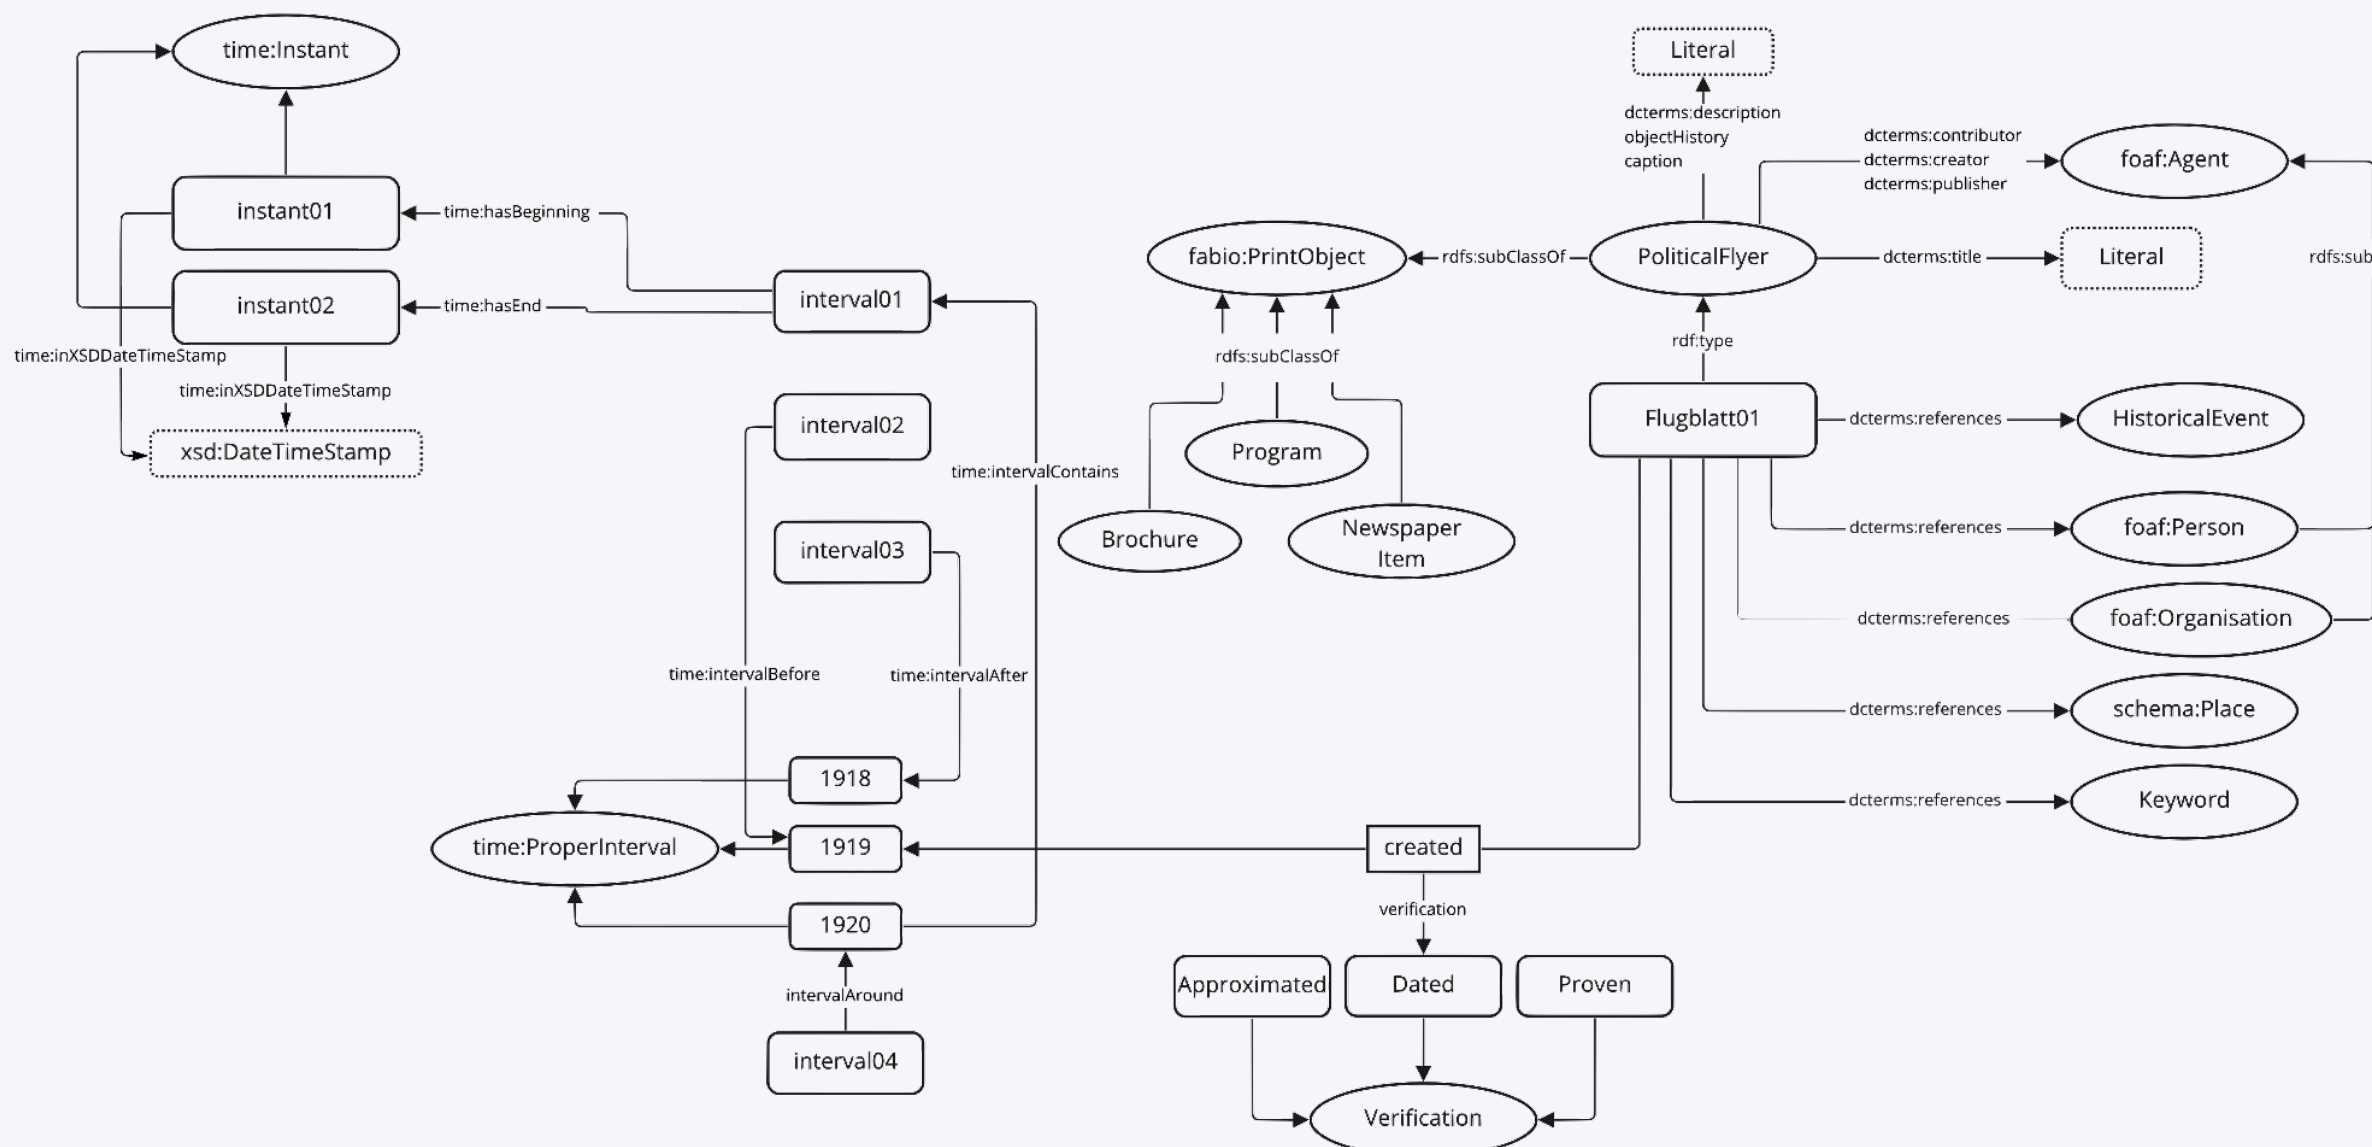

KNOWLEDGE GRAPH

The **Flyer Explorer Knowledge Graph** represents political leaflets published between 1918 and 1920 in Germany. The graph contains the leaflets, their archival metadata and the automatically extracted keyword annotations.
